

VIKING 50 HORIZONTAL BALING PRESS

FEATURES

- The VIKING 50 is a British made machine, including Rams, PowerPack, Motor etc.
- It exerts genuine 50T pressure to produce dense, Mill-size bales, increasing rebate values and reducing waste disposal costs considerably
- Can be supplied with open or enclosed hoppers and can be loaded using a variety of options including conveyor, bucket tip or bin tipper

OPTIONAL EXTRAS

- Can be built to suit all requirements
