

VIKING 40 HORIZONTAL BALING PRESS WITH PORT CULLIS DOOR

FEATURES

- The smallest footprint within the VIKING range, but still has all the features
- Ideal for sites with limited space but require maximum performance
- Manufactured with a “Full Bale Eject” system located through a hinged unloading door, which can be manufactured with either a manual or hydraulic door lock mechanism.

OPTIONAL EXTRAS

- Custom Hopper
- Conveyor Feed
- Bin Lift
- Bale Eject Beacon
- Dual Product Switch
- Retention Claws
